

Loudon, J

D

Secretary, Medical Advisory Board of St. Michael's Hospital

Feb. 1915

118

I have been instructed by the Medical Advisory Board of St. Michael's Hospital to interview the President of the University of Toronto to ask for a ruling in regard to the next class of 5th. year medical students doing the work of resident doctors in lieu of attending some of the University lectures. These men would be allowed off duty to attend as many of the lectures as possible. It is understood that there would be objection on the part of the Ontario Medical Council. The General Hospital will have the same problem to contend with.

J.D. London,  
Secretary

Feb. 9, 1915.
